

To Our Patients and their family members:

We take your HEALTH and WELLNESS very serious at Brandywine Total Health Care!

Our staff is implementing the following measures in our office:

- Sanitizing equipment between *EVERY* patient
- Wiping all surfaces throughout the day, including door handles/knobs, countertops, chairs, etc.
- Spacing patient appointments to limit the number of individuals in the office  
(less than 10 at all times, including staff)

We are asking *OUR PATIENTS* to take the following steps to help maintain a healthy environment for all:

- All patients (and accompanying family members) must put away their cell phone upon arrival and leave it there until scheduling at checkout.
- All patients (and accompanying family members) must wash their hands upon arriving for their appointment
- *ANY PATIENTS WHO ARE EXPERIENCING FEVER AND/OR COUGH SHOULD NOT PRESENT FOR CARE*

Our office will remain open for care as we are considered a life sustaining business.

We must all do our part to keep our community safe!!

Thank you!

*Donald F. Feeney, DC*
